Press Release

Ron Bell, attorney supports 'Circle of Red' Fundraiser in Albuquerque

Ron Bell, a prominent Albuquerque Personal Injury attorney recently attended the "Circle of Red" event in Albuquerque . This event was held at the home of local business woman Gertrude Zachary known as 'The Castle' because of it's unusual architecture, and was attended by several hundred people who are interested in promoting research into women's heart disease. This was an educational and well as fundraising event. Ron was particularly interested in the facts surrounding women's heart disease. " The symptoms can be completely different than men experience. Heart disease is the number one killer of women. "

Of course chest discomfort/pain is of concern, but also shortness of breath, pain in your left arm, breaking out in a cold sweat, being lightheaded, dizzy and nauseous. All of these are symptoms can be experienced in combination by a woman having a heart attack or stroke.

Circle of Red is an elite group of powerful women who have the influence and resources to significantly impact the local community with the American Heart Associations message. Men are always encouraged to participate in their events.

For more information about Circle of Red events you can contact the American Heart Association online at heart.org.
